

# Accessing the RSD Chromebook Agreement

The Redding School District provides all students with optimum learning opportunities by employing and preparing the best teachers, leaders and support personnel, providing the most contemporary facilities and technology, and success in a safe positive, and diverse environment. The goal of the 1:1 program at RSD is to provide opportunities for teachers to engage students, build digital/computer literacy and individual instruction while creating a learning environment that is consistent with advances in technology and facilitate resource sharing, critical thinking, innovation, research, creativity, communication, collaboration, increased productivity, and mobile learning. Your child is not obligated to participate in the 1:1 Project and if you choose to not sign, this does not mean your student will not have access to classroom technology. Your student's classroom will still have a chromebook for your student to use while on campus.

In order for your student to take his/her chromebook home, Parents must complete the Parent 1:1 Project Pledge every year. You are now able to complete this process online. Please complete the following steps.

1. Go to your school website—this is: [schoolname.reddingschools.net](http://schoolname.reddingschools.net)
