

# VACCINES FOR EDUCATION

## COVID-19 VACCINE:

**IT'S OUR TURN TO ROLL UP OUR SLEEVES AND GET VACCINATED!**

You've helped to keep Shasta County schools open through one of the most challenging times in our history. The responsibility is ours, as a community, to **step up and beat COVID-19**. Now we have a new, safe, and effective tool to help us do that—COVID-19 vaccines. Join us in protecting our community by getting a **free COVID-19 vaccine**. To stop this pandemic, we need to use all our prevention tools. Vaccines are one of the most effective ways to protect your health and prevent disease. Vaccines work with your body's natural defenses so your body will be ready to fight the virus if you are exposed (also called "immunity").

### WHO IS ELIGIBLE?

**Childcare Providers**

**School Staff (pre-K through high school)**

**District/County Office Staff**

**Substitutes**

**Regular volunteers within school programs**

### VACCINE MODELS

#### APPOINTMENT BASED

- Plan to schedule your vaccine appointment outside of work hours, such as Friday or Saturday.

#### MASS CLINICS

- Dates & times will be announced.

**TO SIGN UP FOR EITHER VACCINATION MODEL  
CLICK ON SURVEY [HERE](#).**

### WHAT TO DO NOW

- Complete the above survey. You will receive communication inviting you to one of the available opportunities, when vaccine supply is available.

### HOW TO BE READY WHEN IT'S YOUR TURN

- Complete the pre-registration form found [here](#).
- Bring appointment invite and the pre-registration form to your scheduled vaccine opportunity.

### WHAT TO EXPECT

- The most common side effects are pain in the arm where you got the shot, feeling tired, headache, body aches, chills, and fever.
- Public Health will follow-up with you when the 2<sup>nd</sup> dose is available.
- The vaccine used will be based on supply access.
- If you have had an anaphylactic reaction to anything in the past, do not attend a mass vaccine clinic.
- If you have COVID-19, you can be vaccinated when your isolation ends, but because there is limited number of vaccines, Public Health asks that you wait 90 days after recovering from COVID-19 to get a vaccine.
- If you have received any vaccination, you must wait 2 weeks before receiving the COVID-19 vaccine.
- You will still need to wear a mask and socially distance after getting each shot of the vaccine for now.
- Vaccine FAQs are linked [here](#).
